

## WHO WE ARE

Here at HORST CABINETS , we strive to produce clean, modern lines of Frameless Cabinetry using European Style as our inspiration. We produce everything locally in South Florida with high quality materials and are offering both domestic and imported plywood to ensure you can offer your client what is best for them.

Our Kitchen Manufacturing is proudly made and located in the USA, prioritizing High-Quality and long-lasting products for your peace of mind.

We're sure that here, you will find what you need. Our ready-to-purchase RTA style line offers all the biggest hits in the industry.

Total producing time for most projects is **3 to 10 business days.**

Assembly and delivery options are also available upon request.

We partner with Interior Designers, General Contractors, Architects and Developers on single-family home remodeling projects, commercial hospitality, and more to provide our customers with the highest quality.

***We Believe in Your Dream and make it Our Dream in everything we do.***

## HOW WE DO IT

At our manufacturing facility, we take immense pride in offering impeccable edgebanding solutions that add the perfect finishing touch to your furniture and cabinetry projects. At our manufacturing facility, we proudly showcase our cutting-edge CNC machines that revolutionize the way we craft high-quality pieces for kitchens, closets, and vanities. Our CNC work is meticulously designed to deliver unrivaled precision and efficiency, making it a top choice for customers seeking perfection in every detail. We work to unite precision with perfection. Explore our catalog now and be captivated by the transformative power of our edgebander and CNC work.

Your dream space awaits, where the finest details and flawless finishes come together to create a masterpiece tailored exclusively for you. Let us craft your vision into reality, and together, we'll create spaces that inspire and delight for years to come.

5. Cabinets are supported by adjustable legs for perfect leveling on any flooring.

# CABINETS MEASUREMENT OPTIONS

## MEASUREMENTS AND HOW TO READ THEM

WEIGHT	DIMENSION	WEIGHT	DIMENSION
<p>The standard height of our base cabinet is 34 1/2" and the depth 24". Base cabinets are listed by item code and width only, in this case the 24 in this example is the width.</p> <p>When drawers are present, the width will be followed by "-" and the number of drawers. See example shown below.</p>	 <p><b>Base Cabinet</b> <b>B30</b> Cabinet Width</p> <p><b>Drawer Base Cabinet</b> <b>DB30-2</b> Cabinet Width      Number of Drawers</p>	<p>Wall cabinets are listed by item code, width and height. Thus, the first number 24 is the width and the second number 30 is the height. The third number is the depth. The standard depth of a wall cabinet is 12" deep and therefore is not listed in the code.</p> <p>Cabinets of 24" deep are also found in the market and when available it will be seen in the code as shown below.</p>	 <p><b>Wall Cabinet</b> <b>W3042</b> Cabinet Width      Cabinet Height</p> <p><b>Wall Cabinet</b> <b>W304224</b> Cabinet Width      Cabinet Height      Cabinet Depth</p>

## **PRODUCTION**

### **Q: What is the method of assembly?**

A: Our cabinets are RTA –Frameless.

### **Q: Do any of your cabinets contain any particleboard?**

A: Our frameless cabinets are fabricated with either Domestic White Maple plywood or Imported plywood. They are 4-way plywood and the finishes are attached on the outside of the box. For the panels, we work with melamine finish or MDF. Both are from high-quality and reputable suppliers.

### **Q: What kind of drawers do you provide?**

A: Our frameless boxes are made with 3/4” plywood bottoms, backs and sides. We work with BLUM soft closing glides.

### **Q: How does the interior of the cabinet look?**

A: Our cabinets will have the plywood look inside, and will be finished with edge banding 4-sided for the highest quality.

### **Q: Are finished panels necessary for exposed Cabinet ends?**

A: Yes. In order to provide you with more finishing options, panels will be needed for exposed sides.

**Q: Are products CARB2 certified?**

A: Yes, it is our mission to work with suppliers that take pride in making the world a better place, therefore our products are certified.

**Q: What are the depths for your cabinets?**

A: We follow standard measurements, therefore providing bases 24" deep, vanities 21" deep and wall cabinets 12" deep. In the near future, we will also offer wall cabinets in 24" deep.

**Q: What do the shelves look like?**

A: Shelves are made from the same plywood material as the boxes, so they will have the same white maple color variation. Shelves are 3/4" thick and are adjustable for better customization. Wall cabinets include 2 shelves and base cabinets include 1 shelf. If cabinets are 42" in height, they will come with 3 shelves, not 2. Additional shelves are available for purchase.

**Q: Are the cabinets able to support countertops such as granite or solid surfaces?**

A: Yes! Our boxes are made 4-way around with plywood and 3/4" thick material to ensure major resistance without the need to install reinforcements.

**Q: Are soft closing mechanisms included?**

A: Yes. All of our cabinets include a soft closing extension for doors and drawers

**Q: What is the warranty for your products?**

A: We offer 5 year normal wear and tear warranty on our frameless line.

## **PLACING ORDERS**

### **Q: Do you work with credit terms?**

A: We are currently not working with credit terms nor any sort of NET terms. Orders must be paid 50% upon order placing and the remaining 50% paid prior to pick-up or scheduled delivery.

### **Q: What payment forms are accepted?**

A: We work with most major credit cards such as MasterCard, VISA, and Discover. We also accept checks.

### **Q: What is the timeline for stock items?**

A: Our cabinets will take anywhere between 3 to 10 days to produce, with most orders being in stock already. If an item is delayed due to material, the customer will be notified prior to the beginning of production.

### **Q: What does it mean to become a dealer?**

A: When you sign up to become a dealer, you establish an account with us, and can upsell our products to your clients!

### **Q: How do I become a dealer?**

A: Talk to your sales rep, fill out the Dealer Application and get approved!

## **PLACING ORDERS**

### **Q: What are the delivery options?**

A: We can deliver; however, delivery is not included. Delivery charges are extra. We also offer pickup.

### **Q: What is the return policy?**

A: Our return policy is that if you ordered assembled pieces we cannot accept these returns, however if you buy from us not pre-assembled and they are still in the box upon time of return we will be able to happily accept your returns. But we do not accept returns once the boxes have been opened or damaged.

### **Q: Are dealers charged sales tax on their orders?**

A: At the time of the order, dealers must present their resale or tax exemption certificate to your sales rep to waive sales tax on their orders.

Visit for more information.
